Conversation with Heather Griffith

Major Points Discussed:

Return of Heather's call -
I left a message for her to call
me back re. P1088.

2:45pm Heather return my call stating that
one of the inventors is on vacation in
a third world country & may not be
able to be reached in time. The inventor
is Ophir Roman. However she has emailed
him & awaiting a response back but not
for about 2 weeks or so.
